# CHEMIGATION UNIT

Apply chemicals through your pivot sprinkler system with the Northern Chemigation Unit. This unit applies the needed chemicals to your crops at just the right time in a way that is equal to or superior to conventional application methods now used. What's more, the Northern Chemigation Unit can save you dollars per acre by allowing you to apply the chemicals yourself. Use the Northern Chemigation Unit this year and take advantage of one of the most economical and efficient methods of insect control, weed control and fertilizer applications all in one unit.

*A QUALITY CHEMIGATION UNIT AT A COMPETITIVE PRICE*
