PIVOT PAL

IF YOU HAVE EVER CARRIED, ROLLED OR DRAGGED PIVOT TIRES, TOOLS GEAR BOXES INTO A TALL FIELD OF CORN TO REPAIR YOUR PIVOT, YOU WILL WANT AND NEED A PIVOT PAL NOW!

The patented, revolutionary PIVOT PAL effortlessly transports tires, gear boxes, repair parts and tools into dry, mucky or hilly fields while you ride.

THE PIVOT PAL:

- ❖ Travels down 30" rows without damaging the crop
- ❖ Is a self-propelled, six-wheel drive unit
- ❖ Is a heavy duty machine designed and patented for the pivot service industry
- ❖ Allows the operator to ride in and out of the field
- ❖ Is easily loaded and unloaded in a pickup truck
- ❖ Takes an unpleasant, backbreaking job and makes it easy
- ❖ Is user friendly

PIVOT PAL

CUSTOMER FEEDBACK:

“Since purchasing my PIVOT PAL in 1987, I find one man can easily change the pivot tire and have the irrigation system running again quickly.”

Rod Beins, Aurora, NE

“It floats across pivot tracks easily, time saver, takes 80% of the work out of changing pivot tires.”

Howard Koch, Imperial, NE

“We have owned a PIVOT PAL for several years now and we would not be without it... In our hilly terrain, the PIVOT PAL goes right down our 30” rows carrying a spare tire, handyman jack, tool box and a spare gear box. We consider it a necessity for anyone that farms corn under pivot irrigation.

Robert E. Blidsoe, Blidsoe Cattle Company, Wray, CO
